

Direct Source

security

Security—much more than just theft protection.

FINDING THE RIGHT FIT FOR SECURITY: EVERYWHERE

Businesses today need to consider how to best maximize security technology while balancing return on investment. Loss prevention, decreasing liability, operations, customer experience, customer information and safety regulations are just a few of the areas that need to be integrated into a network-wide security solution.

DETERMINING THE IDEAL SECURITY SOLUTION: YOURS

Direct Source can work with you and your security professionals to perform an analysis of available technologies that identify a secure solution that is cost-efficient, flexible and scalable. These technologies include items such as:

- IP-video surveillance, analytics and forensics.
- Cameras, sensors, servers and public view monitors.
- NVRs and DVRs.
- Video management software.
- Security-related accessory installations.
- IP-video encoders and decoders.
- Access control.

ACHIEVING ROI THE RIGHT WAY: RAPIDLY

Security solutions can offer increased return on investment through decreasing the time it takes to look into incidents, convergence with existing infrastructure, lowering the number of liability claims, event correlation, customer demographic information and maximizing solutions that fit your business.

PROVIDING SOLUTIONS AIMED IN THE RIGHT DIRECTION: AHEAD

Direct Source knows security. We help businesses nationwide implement security/surveillance solutions that not only address current systems, but easily integrate with future plans.

FILLING THE RIGHT TECHNOLOGY GAP: SERVICE

Because we design, integrate, stage, deploy and install the systems we recommend, we have expertise inside and outside your location's four walls. Our approach is practical, proven and customer-centric.

- System consultation identifies the ideal technical fit.
- Project planning and management mitigates risk and delivers results.
- Hardware procurement is hassle-free.
- Staging and on-site installations support with rapid, accurate completion.
- Deployment and installation are performed nationwide.
- End-to-end support delivers rapid, efficient and cost-effective results.
- Trained technicians that have successfully completed background screening.
- Vendor independent, with strong partnerships with industry leaders, such as: Honeywell, Axis, Pelco, OnSSI, Milestone and many others.
